The LEA must reserve at least 20 percent of funds to address learning loss through the implementation of evidence-based interventions and ensure that those interventions respond to students' social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care).	These funds will be allocated to go toward the payroll costs of an additional instructional assistant to work in classrooms and to work individually with students. This staff member's role will address the academic needs of all students by their participation in the classroom; and it will address the academic needs of students from underrepresented student subgroups who were disproportionately impacted by COVID-19.	26,339.35	These funds will be allocated to go toward the payroll costs of an additional instructional assistant to work in classrooms and to work individually with students. Response Efforts - COVID 19

Allowable Activities for Remaining Funds. Consistent with PED’s priority to close the digital divide, LEAs must explain how they are using ARP ESSER funds to ensure access to digital devices and other technology for at-risk students and teachers who need them, as well as Internet technology support services. Digital devices must be capable of meeting at-risk students’ remote learning needs and teachers’ remote teaching needs. Digital devices must allow for the reliable download and upload of assignments, streaming of instructional videos, and participation in individual and group video conferencing. In the category below “purchasing instructional technology,” please include in the narrative an explanation of how the LEA is meeting this priority and a dollar amount that will be used for these purposes.

Interim Final Requirement: Under this requirement, an SEA must engage in meaningful consultation with various stakeholder groups on its ARP ESSER plan and give the public an opportunity to provide input on the development of the plan and take such input into account. Specifically, an SEA is required to consult with students; families; Tribes (if applicable); civil rights organizations (including disability rights organizations); school and district administrators (including special education administrators); superintendents; charter school leaders (if applicable); teachers, principals, school leaders, other educators, school staff, and their unions; and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students in the development of its ARP ESSER plan. Under the requirement, an SEA must also provide the public with the opportunity to provide input in the development of the plan and take such input into account.

*Meaningful consultation means each stakeholder group was afforded multiple opportunities to provide feedback on the LEAs ARP application prior to the application being submitted. Pursuant to 2 C.F.R. § 200.332(a)(5), all sub recipients as identified in Exhibit A, attached to this sub award, must permit PED and auditors access to records and financial statements as necessary.

	Required Narrative
<p>Please describe how the LEA will comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a). The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the program.</p> <p>For examples of applicable, relevant, acceptable responses, please see: https://www2.ed.gov/fund/grant/apply/appforms/gepa427.doc</p> <p>GEPA Rubric A satisfactory answer</p> <ul style="list-style-type: none"> • Describes potential barriers to accessing aspects of the proposed spending plan based on criteria such as gender, race, color, national origin, (dis)ability, and age • Describes steps that will be taken to eliminate or reduce those barriers to ensure equitable access <p>May require revision</p> <ul style="list-style-type: none"> • May not clearly or completely describe potential barriers to accessing aspects of the proposed spending plan based on criteria such as gender, race, color, national origin, (dis)ability, and age • May not clearly or completely describe steps that will be taken to eliminate or reduce those barriers to ensure equitable access 	<p>By expending funds to hire and continue to employ additional custodial staff, we will ensure that the school is able to stay open due to the ability to follow CDC guidelines to clean and disinfect the school, reducing the likelihood of COVID infections in the school. As has been widely reported, and as we saw at our own school, having schools closed and in remote mode disproportionately impacted students of color and those with disabilities. One of the most effective interventions to support our students of color and students with disabilities in overcoming barriers is being able to provide in-person instruction without interruption due to COVID closures. Additionally, hiring an additional instructional assistant will allow us to provide targeted, research-based academic supports to students in the classroom setting and in one-on-one tutoring as appropriate.</p>
